Ron Hicks with Tom Day, Founder of “Bugles Across America.”

Roger: This is a photo taken at the Convention Exhibit Hall with Tom Day, a former Marine. Tom is Founder and President of Bugles Across America. Tom started this organization in his basement to make sure that every veteran has "live" taps played at their funeral. The military cannot provide anywhere near enough buglers for this purpose. During its first ten years, Bugles Across America played taps at over 200,000 funerals. Today, Bugles Across America has 7,300 horn players across the United States and plays an average of 2,500 funerals per month.
