

Four members of the Charlottesville Lodge (Tom Underwood, Billy Marshall, Davy Marshall and Dave Benoit) along with Camp Ranger Mike Journell spent this past weekend at the Virginia Elks Youth Camp constructing a 10' x 14' storage shed on an existing concrete pad. By mid-afternoon on Sunday the building was under shingled roof and the plywood sheathed walls were covered in Tyvek paper -- ready to be vinyl sided in the spring.

This unit will primarily be used to store the Camp's waterfront gear (tubes, life jackets, canoe paddles, etc.). Attached are some pictures of the weekend from Dave's camera.

Special thanks to Camp Director of Maintenance, Buster Shaner, from the Staunton Lodge for ordering, picking up and delivering all of the needed building materials and to Mark Skinger from the Charlottesville Lodge (who couldn't make it this weekend due to prior commitment: for donating all of the nails.
