## Mike Journell Update from Michael Haynes

### **Virginia Elks Association Youth Camp Millboro, Virginia**

12:00 NOON - I talked to Mike via telephone today and he is much better. He thinks he will be there another couple of days until they can take out the drain tube in his back. The IV's are out and he is on solid food which Mike says is not bad. He has been walking up and down the halls and other rehab activities for the past three days. Frank Barrett of the Roanoke Lodge visited yesterday, Mike was elated that he visited. Way to go Frank! Mike has been told that after being released from the hospital he will be sent to rehab closer to the Camp. He does not know how long he will be there before being able to go home. Get well cards would be great, as many as we can send from around the state. Address them to the Camp - He will get them.
