## Staunton 351 Uses ENF Grant to Buy Tools for Veteran Students

Staunton 351 recently used its ENF Gratitude Grant to purchase textbooks and specialized tools for two combat Veterans who are students in Blue Ridge Community College's Aviation Maintenance Technician Program. As aviation maintenance is critical, so are the specialized tools required for it critical, and expensive, too. Staunton 351 is proud to assist these two Veterans to learn a valuable vocational skill as they transition to civilian life. In the photo top left are, L to R, Student Travis Martin, Student Michael Summers, and Associate Instructor Steve Bradley. In the photo at bottom right, Staunton 351 Lodge Officer and Decorated Combat Veteran himself Bob Bean and Staunton 351 Lodge ENF Coordinator Suzanne Meeks pose with the students.
